

Gemini Collection

A unique combination of safety, economy and selection

2100 Series

25 Gauge (.019" min)
2" Sections

2200 Series

24 Gauge (.022" min)
2" Sections

Safety, Economy, Selection

The Hörmann Gemini Collection offers you a wide range of styles and a broad variety of design options to enhance the beauty of your home. The virtually no-maintenance Gemini Collection comes in your choice of steel: as the **2100 Series** made of **25 gauge (.019" min.)** galvanized steel, or as the **2200 Series** made of **24 gauge (.022" min.)** galvanized steel.

Deep tongue and groove section joint contribute to the door's **excellent strength**. Intermediate seals prevent air infiltration, which enhances the **insulation** properties.

Fully boxed end and center stiles add **additional structural integrity**.

Well-defined panel embossments, easy to clean woodgrain texture, galvanized and **finish painted steel** provide years of trouble-free performance and beauty.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Hörmann Special Features

FingerGuard™ Pinch Resistant

The FingerGuard™ section joint and hinges provide air-tight seal and prevent finger injuries inside and outside.

11 Ball Bearing Nylon Rollers

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.

Between Section & Side Seals

Factory installed between section weather seal and side seal offer maximum protection from the outside elements while further enhancing the insulation properties of a door.

Choose the color which best suits your home
